
Eden Cope

Junior Front-End Web Developer

Portfolio: <https://edensweden.github.io/>

Github: <https://github.com/EdenSweden>

LinkedIn: <https://www.linkedin.com/in/edencepe>

ABOUT

From the moment I began to build and debug my first application, I knew my journey into coding was going to be a challenge—and I wouldn't have it any other way. Web development has taught me perseverance, patience, creativity, confidence in my own ability to do hard things, and flexibility in finding new solutions to problems. That is why I am pursuing this as a career—the personal rewards are far-reaching, and I would like to share that triumph with the people I work with as we overcome challenges together.

TECHNICAL SKILLS

- HTML5
- CSS3, including Flexbox and CSS Grid
- JavaScript
- Responsive design
- Using libraries such as Bootstrap and jQuery
- React.js, including React hooks
- React-Redux state management

SOFT SKILLS AND QUALITIES

- Sense of humour
